Cloud Computing has become one of the most important topics of conversation among the IT community. Industry leaders Google, Amazon, Oracle, Microsoft and Rackspace are fiercely investing in Cloud Technologies.

Considering the vast gap in skill supply and industry demand, Aegis took initiative and launched India's first industry-ready PGP in Cloud Computing, with inputs from Google, VMware, Cisco, Microsoft and Amazon. Aegis PGP in Cloud Computing is not only delivered by the industry leaders, but is also available on Cloud and can be accessed over any smart mobile device.

Aegis Cloud Computing programs intend to educate career aspirants and IT professionals with an interest in developing and deploying enterprise applications in the cloud, including business and security aspects of these applications and their interaction with mobile computing.

Cloud Computing is a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction.

India's first PGP in Cloud Computing

Aegis School of Business & Telecommunication is the leading business school for advance studies and research in the areas of Telecom Management, Business Consulting, Entrepreneurship, Enterprise Mobility, Cloud, Social Media and Business Analytics.

Aegis was started with the support of Bharti Airtel, the top telecom firm in India in 2002, for developing next generation cross-functional leaders. Aegis is the first to start executive Telecom Management, MBA on Tablet, Business Consulting, Cloud Computing, Business Analytics & Big Data programs in India, and the first to start a Master's in Enterprise Mobility in the world.

Financial Aid

Study Loan from Bank

Various Indian Banks are offering education loans to Indian candidates. The loans cover tuition fees as well as living expenses, without any security.

Work Assistance

We offer paid work or consulting assignments to cover the partial cost of education at Aegis.

Scholarships

A range of scholarships is available to students of all nationalities to support full time study at Aegis School of Business & Telecommunication.

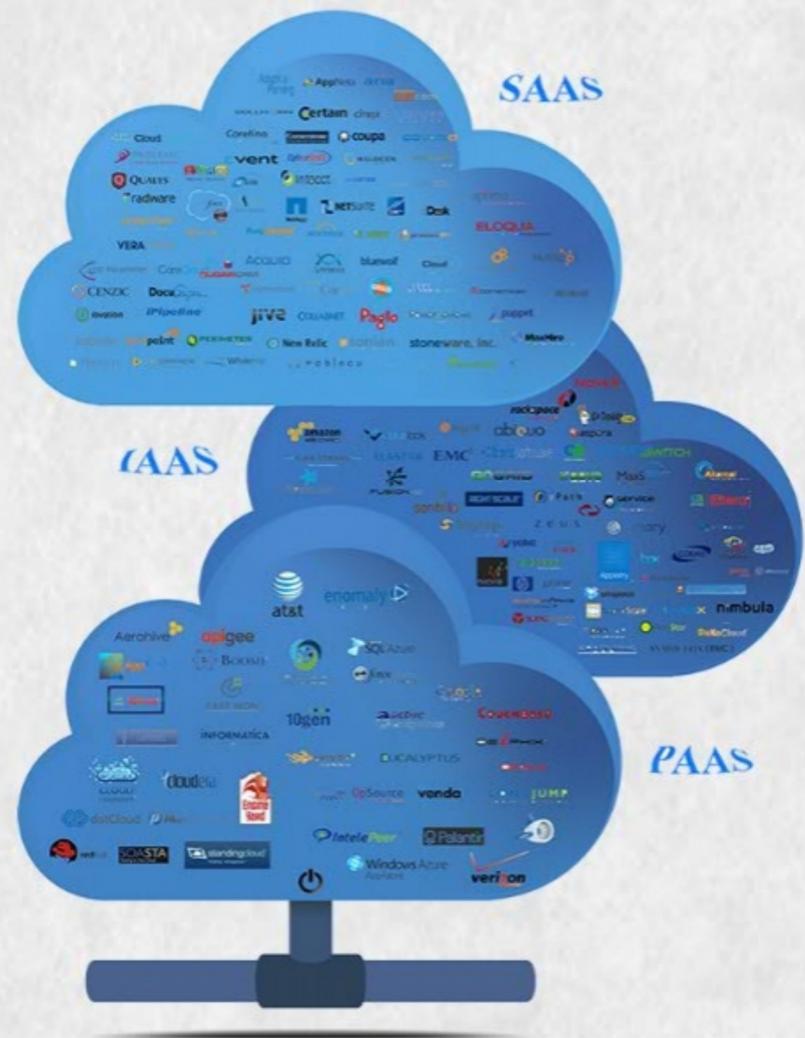

- Aegis Graham Bell Scholarship
- Aegis Leadership Scholarship
